---

## CAREER SUMMARY

---

Full-stack web developer with experience building responsive, user-focused applications for small businesses and startups. Skilled in HTML, CSS, JavaScript, and familiar with backend concepts including Node.js, Express, and database integration. Adept at UI/UX design, clean code practices, and API integration. Proven ability to increase user engagement by creating intuitive interfaces and streamlining workflows. Strong collaborator with cross-disciplinary teams, capable of driving projects from concept to deployment.

---

## SKILLS

---

AutoCAD	Node.js(basic)
Global Mapper	Express.js(basic)
ArcGIS / QGIS	Remote Sensing & Satellite Image Interpretation
Surfer	Data-Driven Performance Analytics
UAV Mapping	Python
HTML5, CSS3, JavaScript	Canva
Tailwind CSS / Bootstrap	Restful API
JSON Data Handling	API Integration
Microsoft 365	Strategic Resource Planning
My SQL	GIS Data Processing & Mapping
PostgreSQL	Spatial Analysis & Georeferencing
Total Station & GNSS Equipment Operation	Data Visualization (charts, plots, dashboards)

---

## EXPERIENCE

---

<b>Full Stack Developer (freelance)</b> <i>Degree Group</i>	<b>2025 - Present</b>
<ul style="list-style-type: none"><li>● Built Zentrip, a multi-page travel agency website using HTML, JavaScript, and Tailwind CSS, allowing users to select destinations and book trips.</li><li>● Developed a Space Tourism website from a Figma design using HTML, CSS, and JavaScript (Frontend Mentor challenge).</li><li>● Created a responsive landing page for a modern furniture brand with HTML, CSS, and JavaScript.</li><li>● Coded a functional browser extension landing page using HTML, CSS, and JavaScript (Frontend Mentor challenge)</li><li>● Built a RESTful API using Node.js and Express to handle blog post creation, reading, updating, and deletion, with JSON-based data storage.</li></ul>	

- User Authentication System: Implemented user sign-up, login, and Oauth based authentication in Node.js with password hashing using bcrypt.
- Contact Form: Created a server-side handler with Express.js to process form submissions and store them in a PostgreSQL database.

**Surveyor | GIS Analyst**  
*Bomtrack Nigeria Limited*

2023 - 2024

- Led a topographic survey project for a 25-acre development site in Otta, Ogun State , using GPS and total station equipment to generate high-accuracy contour maps, which reduced design revisions by 30%.
- Processed and analyzed UAV (drone) imagery to create 3D terrain models for an environmental impact assessment, enabling faster visualization and stakeholder approvals.
- Conducted hydrographic survey using echo sounder for land reclamation at Captain’s Court, Ajah, Lagos; performed volumetric analysis and generated depth models to support accurate back filling and project planning.

**Virtual Assistant | Data Specialist (Freelance)**  
*Geo -Sounding Information Resources*

2022 - 2024

- Organized, maintained, and streamlined company databases, ensuring clean, accurate data that supported effective reporting and business decisions.
- Managed complex calendars, scheduled meetings, coordinated travel, and handled communications—freeing up executive time and increasing day-to-day efficiency.
- Maintained CRM systems, followed up with clients, and ensured timely, professional communication, which improved client satisfaction and strengthened relationships.

---

## EDUCATION

---

**Federal University Of Technology, Minna, Niger State** | *Bachelor Of Technology: Surveying And Geoinformatics.*

2024

---

## CERTIFICATIONS

---

<b>Full Stack Developer Career Path</b> - Udemy	2025
<b>Esri ArcGIS Pro Foundations Certification</b> - Esri Academy	2022
<b>Hydrographic Surveying Basics</b> - Bomtrack Nigeria Limited	2022
<b>Remote Sensing &amp; UAV Surveying Certifications</b> - Bomtrack Nigeria Limited	2022
