CAREER SUMMARY

Self-taught Front-End Developer with a passion for crafting clean, modern, and responsive user interfaces. Skilled in transforming ideas into interactive web experiences using HTML, CSS, JavaScript, and modern frameworks. I approach challenges with curiosity and persistence, learning independently while thriving in collaborative, creative environments. Dedicated to continuous growth and building products that are both visually appealing and technically sound.

SKILLS

AutoCAD	React
Node.js(basic)	Redux
Global Mapper	Express.js(basic)
ArcGIS / QGIS	Remote Sensing & Satellite Image Interpretation
Surfer	Data-Driven Performance Analytics
UAV Mapping	Python
HTML5, CSS3, JavaScript	Canva
Tailwind CSS / Bootstrap	Restful API
JSON Data Handling	API Integration
Microsoft 365	Strategic Resource Planning
My SQL	GIS Data Processing & Mapping
PostgreSQL	Spatial Analysis & Georeferencing
Total Station & GNSS Equipment Operation	Data Visualization (charts, plots, dashboards)

EXPERIENCE

Full Stack Developer (freelance)
Degree Group

2025 - Present

- Built Zentrip, a multi-page travel agency website using HTML, JavaScript, and Tailwind CSS, allowing users to select destinations and book trips.
- Developed a Space Tourism website from a Figma design using HTML, CSS, and JavaScript (Frontend Mentor challenge).
- Created a responsive landing page for a modern furniture brand with HTML, CSS, and JavaScript.
- Coded a functional browser extension landing page using HTML, CSS, and JavaScript (Frontend Mentor challenge)

- Built a RESTful API using Node.js and Express to handle blog post creation, reading, updating, and deletion, with JSON-based data storage.
- User Authentication System: Implemented user sign-up, login, and Oauth based authentication in Node.js with password hashing using bcrypt.
- Contact Form: Created a server-side handler with Express.js to process form submissions and store them in a PostgreSQL database.

Surveyor | GIS Analyst
Bomtrack Nigeria Limited

2022 - 2025

- Part of a topographic survey project for a 25-acre development site in Otta, Ogun State , using GPS and total station equipment to generate high-accuracy contour maps, which reduced design revisions by 30%.
- Processed and analyzed UAV (drone) imagery to create 3D terrain models for an environmental impact assessment, enabling faster visualization and stakeholder approvals.
- Conducted hydrographic survey using echo sounder for land reclamation at Captain's Court, Ajah, Lagos; performed volumetric analysis and generated depth models to support accurate back filling and project planning.

Sales & Customer Support Representative
Mtn Nigeria

2017 - 2020

- Assisted customers with SIM card sales, registration, and activation, ensuring compliance with NCC guidelines and maintaining accurate customer data.
- Promoted and sold mobile devices, data plans, and other MTN products, consistently meeting sales targets.
- Provided personalized customer support, resolving issues efficiently and improving user satisfaction.
- Collaborated with the team to maintain an organized, engaging, and customer-friendly retail environment.

EDUCATION

Federal University Of Technology, Minna, Niger State | *Bachelor Of Technology: Surveying And Geoinformatics.*

2024

CERTIFICATIONS

Full Stack Developer Career Path - Udemy	2025
Esri ArcGIS Pro Foundations Certification - Esri Academy	2022
Hydrographic Surveying Basics - Bomtrack Nigeria Limited	2022
Remote Sensing & UAV Surveying Certifications - Bomtrack Nigeria Limited	2022
